WARNINGS & PRECAUTIONS:

To avoid risk of serious injury or possible violation of laws, please read the following thoroughly before installation or connecting.

- This product is designed specifically for use with 12 volt, negative ground electrical systems only.
- Having the wiring and installation done by expert.
Be sure to disconnect the cable from the negative battery terminal while installation.
- This apparatus shall not be exposed to dripping or splashing, and no object filled with liquids shall be placed on the apparatus.
- Fuses shall be replaced only with the correct type and fuse value, and only when the apparatus is powered off.
- To prevent a short circuit, never put or leave any metallic objects(such as coins or metallic tools)inside the unit.
- Never set the volume of this product so high that you cannot hear outside traffic and emergency vehicles.

PRODUCT FEATURES:

LCD: VA-LCD

Key Light: Multi Color

Bluetooth: Version 5.1

Remote: Support

Pre-Output: 6CH x 3V

AUX In: Support

Bluetooth Music: Support

External Microphone: Support

EQ: 28 Band/8 Preset

Radio: FM

USB: Charge 1A

APP Control: iOS and Android Phone

Max Power: 4 x 60W

Subwoofer: Support

Dual Bluetooth Connection: Support

Audio Format: MP3/WMA/AAC/FLAC

INSTALLATION:

Installation Procedures

First complete the electrical connections and then check for correctness.

Installation Opening

This unit can be installed in any dashboard has an opening as shown below:

TO Install The Car Radio

Be sure you test all connections first, and then follow these steps to install this unit.

1. Make sure the ignition is turned off, and then disconnect the cable from the vehicle battery's negative (-) terminal.
2. Disconnect the wire harness and the antenna.
3. Remove the detachable panel and decorative enclosure frame and place on one side.
4. Insert the two brackets into the left and right sides of the chassis, as shown in the following figure, and separate the chassis from the sleeve.

5. Insert the installation sleeve into the center console to be installed, and bend the clip using a screwdriver. Make sure the locking rod is flush with the mounting sleeve and does not protrude.
6. Connect cables as shown in the Wiring diagram.
7. Insert the car radio into the mounting sleeve.
8. Install decorative enclosure frame.

ACCESSORY LIST:

Please check the following accessories after opening the package:

REMOTE OPERATION:

APP OPERATION:

APP Download

Method 1: Please scan the QR code on the cover to download the APP and install it on your Android or Apple device.

Method 2: Please go to the Apple APP Store or Google Play Store and search [AUDIO DSP Control] APP, after downloading the APP, install it on your Apple & Android devices.

APP Connection

1. Open the [AUDIO DSP Control] APP, click [] to search for XQ-7350.
2. Click XQ-7350 to connect, the [] will be red after the connect is successful.

BLUETOOTH OPERATION:

Bluetooth Pairing

The first time pair mobile phone with receiver, please follow below steps:

1. When there is no pairing, in any mode, the BT on the LCD will flash, and the pairing can be performed at this time.
2. Turn on the phone's Bluetooth to search XQ-7350.
3. Click on the XQ-7350 on the phone to connect. After the connection is successful, the BT will stop flashing.
4. When pairing is completed, the mobile phone audio will transfer to the car audio system automatically whenever a call is made or received, or when the mobile phone plays music.

Note:

For more details of bluetooth pairing, please refer to the owner's manual for your mobile phone.
